Age-Friendly
Community

Creating a Community for a Lifetime

Creating a Community for a Lifetime

A Presentation by the Grand River Council on Aging

The speaker for our September 17 meeting will be **Lucy Marco**, Executive Director of the Grand River Council On Aging (GRCOA). She will share how the GRCOA supports the creation of an "Age-Friendly" community.

By listening to the "voices of lived experience" the GRCOA provides guidance to municipal and community organizations to support change that optimizes opportunities for health, participation, and security as people age.

When changes in infrastructure and services become necessary, it is so important to consider the impact of that change for the future of our children and grandchildren.

GRCOA programs and resources developed to keep older adults active, engaged and connected will be reviewed.
